November 7th, 2013 6 a.m.

small birds/autumn leaves.
landed/fallen.
peck bits/last bit; color.
noise scatter/breeze shake.
stay winter?/return spring?

December 9th, 2013 3:21 p.m.

not a breeze.
in winter, wind?
snow fall-curly q's down.
resting even before landed.
rested even before fall.
so quiet.

December 30th, 2013 4:22 p.m.

where.
whence.
ether.
alone?
compounded: glimpse to thought -
thought out idea.
continuous...

January 4th, 2014 6:35 p.m.

struggle: on & on.
others?
often.
alone?
easily increase.
then an other eases pain.
a touch.
not always/ often enough.

January 5th, 2014 3:45 p.m.

thoughts: fast-slows.
too slow?
quieted.
subtly breathed.
subtle breath where:
thinking stills to remarkable.

January 10th, 2014 6:38 p.m.

what to do?
headed where?
who's this this?
within wherefore exactly?
who's asking?
some paid by policy, some not.
!

January 23rd, 2014 8:29 p.m.

minutes, endless moments full.
routine?
some semblance of.
tupperware beyond kafka-esque.
did my son eat peanut-butter and carrots
all week?

January 28th, 2014 8:20 a.m.

this/that moment.
possible to choose?
well rehearsed and readied.
inspiration-completion-analysis.
signature.

January 28th, 2014 number 2

sadness, world over, apparent.
uninvited.
presents itself as blank face.
pleasant? happy?
listen: whispered grin.

January 19th, 2014 number 2

candles, buddhas, incense, skulls.
an origami lily.
flicker: faces, faces, folds.
heady air.
question/contemplate.
don't ask.

January 19th, 2014 5:41 p.m.

atmosphere: overwhelm.
laden.
heavy laden.
dark day: over casts.

February 11th, 2014 3:00 p.m.

9 candles.
white to clear flames, white light.
close eyes-white upon lids, upon face.
a clear light for clarity.

February 8th, 2014 1:40 p.m.

so long numb: survive.
recovery grieving.
pain(life) under another pain;
didn't allow full scope.
but, I'm bawling now.

February 5th, 2014 4:07 p.m.

February 5th, 2014 4:07 p.m.

February 28th, 2014 2:17 p.m.

chores done-down to work.
creation: impending necessity.
flow on whatever/whatnot.
decipher, amend-addendum.
easier if: from nowhere, magic, a one point.
except...seasons: not begun/not ending/
ever-abiding;
seamless: cycle into one another.
dependant.
finite equates aggression.
