

**Physics**

My daughter excelled in Physics  
I asked her what is it  
Science? Math?  
What?  
She told me in the simplest terms  
It's the study of things in motion  
My father must have  
Known a thing or two  
About physics  
When he was teaching me  
How to drive  
He said  
If you know you are going  
To crash head on  
Floor it  
The slower car  
Will receive the most damage  
Physics is a guide  
to survival

**Biology**

It took  
Flunking  
Three  
Bio 101's  
To get  
Kicked  
Out of  
Convent  
Boarding  
School  
I wanted  
To be Home  
With my family  
My father  
Was never there  
He was out  
Practicing  
Bio101

Bending over  
Brushing my  
Long hair dry  
In front of a  
Big opened window  
The white sheer curtains  
Billowed as I  
Watched the girls  
Below  
In their green tunics  
And bloomers  
Run up and down  
The hockey field  
After a little  
White ball

**Field Hockey**

I would do  
Everything  
Possible  
To get out  
Of sports  
I hated  
Running and  
Have never been  
Much of a team  
Player  
I remember  
One breezy  
Spring day  
The air perfumed  
With daffodils  
And lilacs

**Penmanship**

The insides  
Of the pointer  
And the middle  
Finger are stained  
Blue

We are only  
Permitted to use  
Ink pens

So we kept little  
Bleach bottles  
In our desks

Our fingers  
Were to be clean  
At all times

And there were  
To be no ink spots  
In our notebooks  
Or on our papers

Most of us had  
Bleach marks  
On our uniforms

And we always  
Smelled bleachy

I learned several  
Methods of penmanship  
I was skilled  
In keeping between the lines

In all other aspects  
Keeping between the lines  
Is an ability I lack
